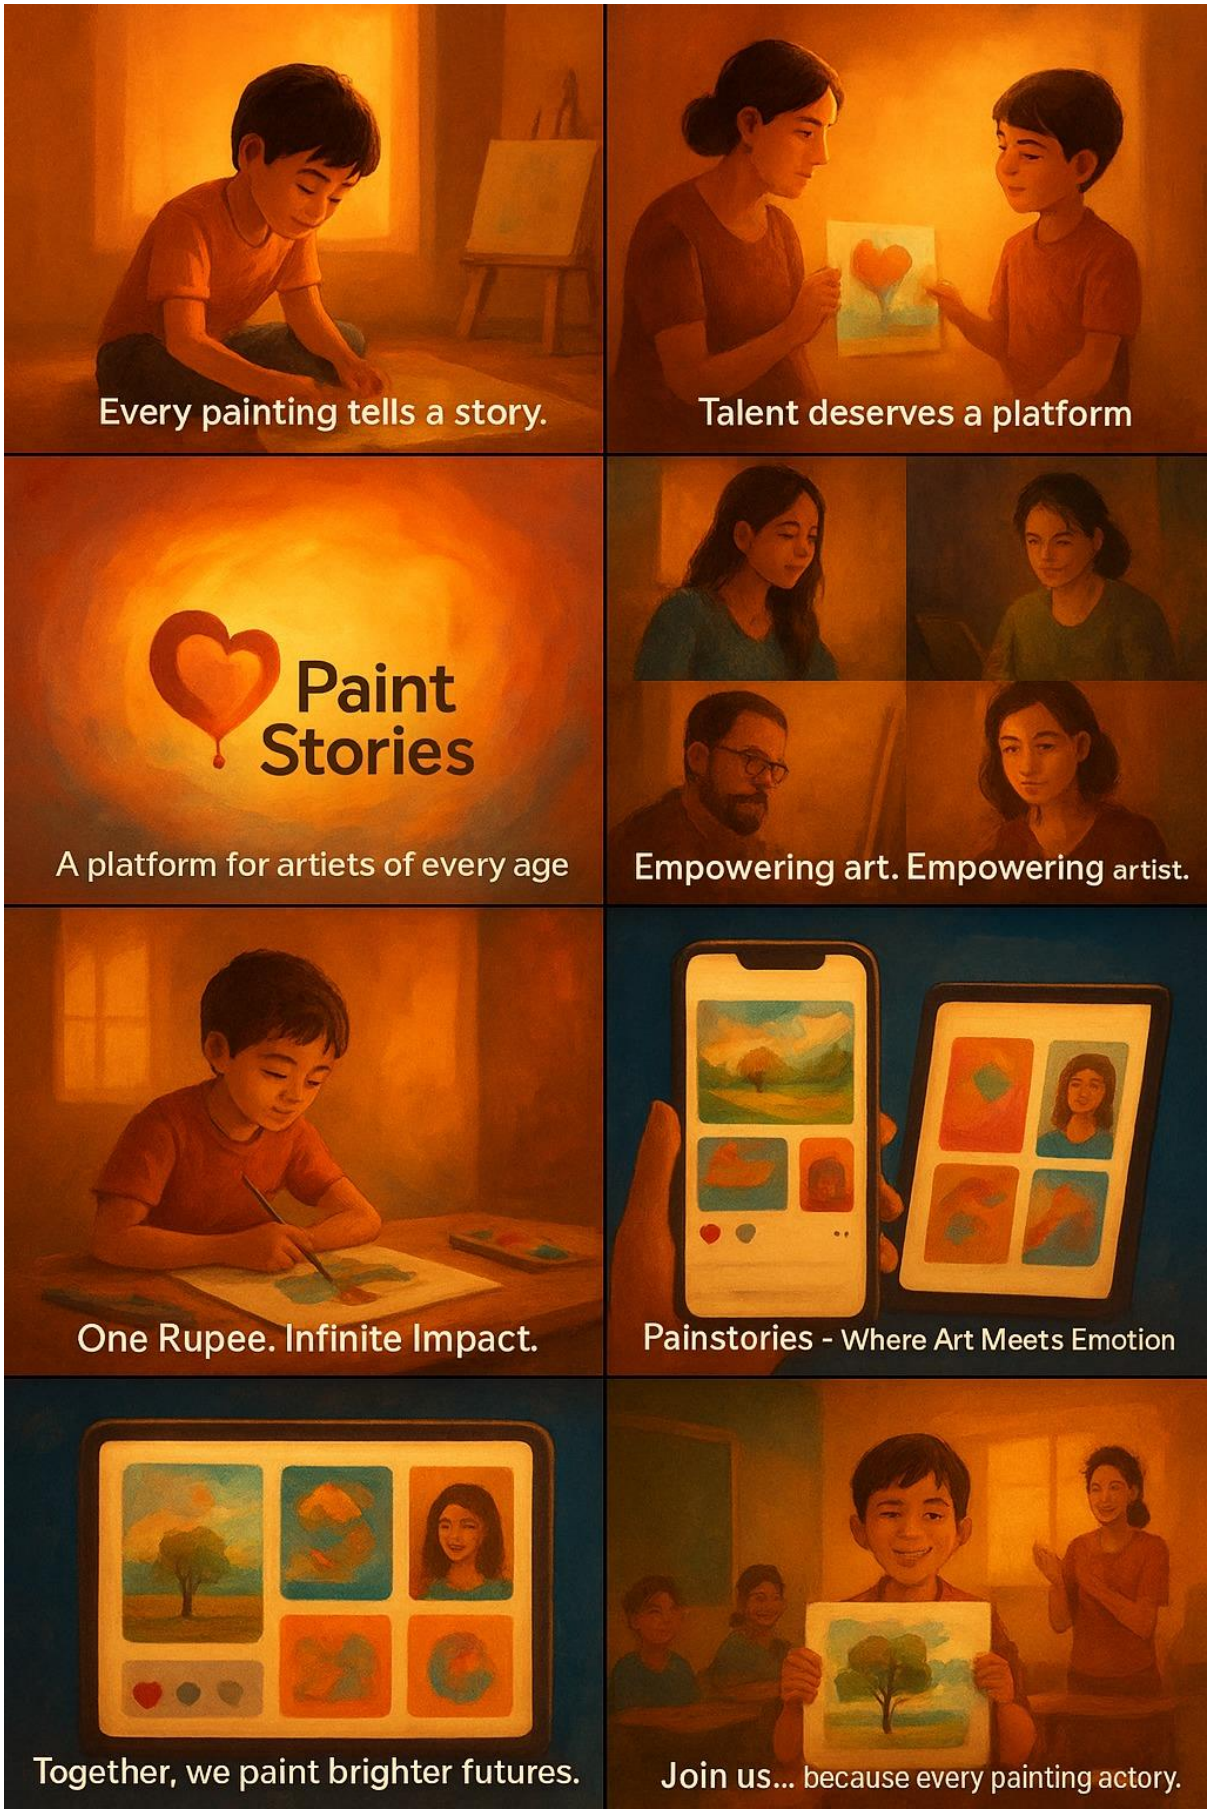
Paint
Stories



Every painting tells a story.
Talent deserves a platform
Paint Stories
A platform for artiets of every age
Empowering art. Empowering artist.
One Rupee. Infinite Impact.
Painstories - Where Art Meets Emotion
Together, we paint brighter futures.
Join us... because every painting actory.

Paint Stories transforms emotions, stories, and spaces into meaningful art—connecting creators, learners, and buyers on one powerful platform.

Paint Stories is an ecommerce marketplace (web + mobile) connecting paint artists, schools, and customers. Customers can browse and buy framed artworks, commission custom pieces, and hire artists for workshops. Artists can create profiles, list artworks (fixed price / auction), accept commissions, manage orders and schedules. Schools and institutions can discover artists and book workshops or long-term partnerships. The platform will support secure payments, order/shipping tracking, artist verification, reviews, and admin moderation.

1. **Customized Paint Stories** – artworks created based on a customer's personal story or brief
2. **Canvas Art & Framed Artworks** – ready-to-buy original and curated pieces
3. **Art Educators & Workshops** – booking artists for classes, workshops, and institutions
4. **Handicrafts & Artistic Products** – curated handmade creations
5. **Interior Art Solutions** – art frames and installations for
    - Residential buildings
    - Hospitals
    - Commercial spaces
    - Offices & public areas

What PaintStories Offers

For Customers

- Browse and purchase **original framed artworks**
- **Commission custom artworks** based on personal stories, themes, or spaces
- Buy **handicrafts and artistic décor**
- Discover art curated for **interior spaces** (homes, hospitals, offices, commercial buildings)
- Track orders, shipping, and delivery
- Secure payments & verified artists
- Rate and review artists and products

For Artists

- Create a **verified artist profile**
- List artworks as:
  - Fixed-price products
  - Auction-based listings
- Accept **custom commissions**
- Manage:
  - Orders
  - Pricing
  - Availability & schedules
- Get visibility to **individual buyers, corporates, and institutions**
- Build reputation through reviews & ratings

For Art Educators & Schools

- Showcase **artist portfolios and teaching experience**
- Offer:
  - Workshops
  - Art classes
  - Long-term institutional programs
- Schools & institutions can:
  - Discover artists
  - Book workshops
  - Form long-term partnerships

Goals & success metrics

Primary goals

1. Build a trusted marketplace for artists to sell/schedule work.
2. Enable customers/schools to buy, commission, and book artists.
3. Create revenue streams: commission on sales, subscription for premium artist features, service fees for bookings.

Goals & success metrics

Primary goals

4. Build a trusted marketplace for artists to sell/schedule work.
5. Enable customers/schools to buy, commission, and book artists.
6. Create revenue streams: commission on sales, subscription for premium artist features, service fees for bookings.

Core features (high-level)

Buyer side

- Browse catalog (search, filters, categories, style, price)
- Product detail: high-res images, video, story, artist profile
- Add to cart / buy now / Wishlist
- Commission request form (brief + moodboard uploads)
- Book artist for workshop (calendar)
- Secure checkout (cards, wallets, UPI, net banking)
- Order tracking & returns
- Reviews & ratings

Artist side

- Sign up / KYC / verification
- Artist profile (bio, portfolio, social links)
- List art items (photos, dimensions, price, framed/unframed, stock)
- Manage commission requests & quotes
- Calendar / availability for bookings
- Dashboard: orders, earnings, payouts
- Messaging inbox (buyer ↔ artist)

Admin / Platform

- Artist verification workflows
- Category & product moderation
- Commission dispute resolution
- Orders, refunds, payouts management

- Analytics dashboard
- Promo code & campaign admin

Others

- Push notifications & email
- Multi-language support (start with English + regional language)
- Localization of currency & payment methods
- SEO friendly product pages (web)

User flows (short)

Buyer purchase flow

1. Home → Browse → Product page → Add to cart → Checkout → Payment → Order confirmation → Shipping updates → Delivery → Review.

Artist commission flow

1. Buyer fills commission brief → System routes to selected artist(s) → Artist views request → Sends quote/accepts → Buyer approves & pays escrow → Artist completes → Delivery & payout.

School booking flow

1. School searches “workshops” → selects artist → selects date(s) using calendar → requests quote → negotiates → confirms and pays deposit.

Target users & personas

1. **Buyer (End customer)** — age 25–50, home decor shoppers, gifting, art collectors.
2. **Artist** — freelance or studio artist, wants additional revenue channel and exposure.
3. **School/Institution** — looking for workshops or hiring artists for events.
4. **Admin / Curator** — internal staff who moderate, verify artists, resolve disputes.
5. **Logistics / Partner** — shipping partners or in-house fulfilment.

User story 1 (buyer)

- As a buyer, I want to search artworks by style and price so that I can find art that fits my taste and budget.

    - Acceptance: Searching "watercolor" returns relevant items, filters by price range persist, product page shows artist and high-res images.

User story 2 (artist)

- As an artist, I want to list a new artwork with images, dimensions, and price so customers can purchase it.
    - Acceptance: Artist can upload 3+ images, set dimensions, choose framed/unframed, and the product appears in catalog.

User story 3 (commission)

- As a buyer, I want to submit a commission brief and receive a quote so I can order a custom artwork.
    - Acceptance: Buyer fills brief + references, artist receives notification and can send a quote; quote acceptance triggers escrow payment.

User story 4 (payout)

- As an artist, I want to request a payout for completed sales so I receive my earnings.
    - Acceptance: Artist requests payout, admin sees payout in queue, payout status updates on completion and amount equals net after fees.

Detailed functional requirements (select prioritized items)

Authentication & users

- Email/phone OTP sign up
- Social sign-on (Google, Facebook)
- Role selection at signup (buyer/artist/school)

Artist onboarding & verification

- Upload ID, portfolio (images/videos), sample dimensions
- Manual verification (admin dashboard) with status (pending/verified/rejected)
- Tag specialties (watercolor, oil, abstract, portraits, murals)

Catalog & product

- Product fields: title, description, images (min 3), artist, dimensions, medium, framed (Y/N), price, shipping weight, available stock, SKU, tags.
- Variant support for frame options.

Search & filters

- Full text search, filters: price, artist, medium, size, availability, rating.

Commission & custom requests

- Commission form fields: brief, preferred medium, size, deadline, reference images (multi), budget range.
- Artists can send quote (amount + timeline). Buyer approval triggers payment flow.

Cart & checkout

- Shipping address book
- Promo code/coupon support
- Order summary with artist commission + platform fee
- Tax calculations (configurable by admin)

Payments & payouts

- Integrate payment gateway (supports cards, UPI, wallets)
- Escrow model for commissions (platform holds payment until delivery)
- Periodic artist payouts (manual or scheduled)
- Refund and dispute flows

Messaging & notifications

- In-app messaging between buyer/artist and buyer/admin
- Push + email templates for key events

Admin features

- Artist verification queues & notes
- Content moderation (flagged artworks)
- Refund management and dispute logs
- Promo & campaign creation

Analytics

- Dashboard: sales, orders, top artists, conversion funnel, refund rate.
